

Little Kids Village
P.O. Box 29632
Chicago IL. 60629

Dear Parent,

Little Kids Village is excited to welcome _____. We are here to provide care to every child while maintaining each child's safety and wellbeing while enrolled in our center. We are aware that children have to become acclimated to new scenery, new people and new routines. Little Kid's Village has a one-week trial period for each new student enrolled. During this period, we will work with the child(ren) to become comfortable with the classroom, students and teachers. We will monitor any behavioral issues that may arise that are consistent and unsafe for everyone in the classroom as well as introduce the child(ren) to daily structured routines, creative age-appropriate hands-on lessons, and group activities that will promote working with others, sharing, communicating with one another and self-awareness. At Little Kids Village we assist each child with meeting their milestones as they grow, with that we ask that each child is completely potty trained in order to enter our pre-k leveled classroom (3-5 yr). If we see that the child cannot become acclimated to the center, we will gladly recommend other centers that are more suitable for your child(ren). We ask parents to understand our policy and hope to work with our staff as we help to ensure the best for the child(ren) while enrolled.

Please feel free to reach to our administration with any question.
